

# Is Netsmartz the Right Fit? A Decision Toolkit for Tech Leaders

Use this toolkit to help you and your internal teams make a confident, informed decision.

## Why Netsmartz?

### Cross-Disciplinary Expertise

- AI, Data Engineering, QA, and Cybersecurity, integrated, not siloed
- Services aligned to product velocity, security posture, and operational resilience
- 1500+ engineers with domain depth and enterprise-grade experience
- Proven track record with 2100+ happy clients across industries and regions

### Speed without Sacrificing Quality

- Launch projects within 1-2 weeks
- Certified experts across Azure, AWS, Google Cloud, Microsoft Fabric, and more
- Robust QA automation and security baked into every engagement more

### Global Scale, Local Sensitivity

- Hybrid delivery model with onshore oversight and offshore efficiency
- Teams operate in your time zone, tools, and security protocols
- Data compliance, governance, and IP protection guaranteed

# What You Can Build with Us

Domain	Use Case Example
AI	Predictive analytics, Gen AI integration, LLM validation, computer vision, chatbots
Data	Data modernization, Fabric & Power BI, Lakehouse setup, real-time dashboards
QA/Testing	Automated testing (Selenium, Cypress), AI-driven QA, regression testing, test strategy
Cybersecurity	Threat modeling, cloud security reviews, compliance audits (SOC2, ISO, HIPAA)

## Your Internal Checklist

Use these questions to align your stakeholders:

- Are we getting strategic thinking or just tactical execution?
- Can the partner scale cross-functional teams, not just individual roles?
- Do they understand compliance, quality, and security in modern environments?
- How fast can they start, and how quickly can we see value?
